

Digital BBQ tongs

A perfect BBQ experience! The digital tongs knows the right temperature for seven pre-programmed types of meat and alerts you if you have selected the grill level is reached. The measures already tongs when turning the core temperature of the food on and displays them in an illuminated LCD screen. No incision longer necessary - the meat is juicy. For the evening twilight, an additional LED light is integrated. For easy cleaning, the LCD screen can be removed. The clamp is then given simply in the dishwasher.
